**Re:** 12<sup>th</sup> Street Landfill Site Visit

Mike/Sviatlana,

Attached is a sketch showing an alternate access route to the site using the existing railroad grade crossing, paralleling the railroad for approximately 500 feet and entering the site from the south. The access road would be extended northward (avoiding the low area where water tends to pond) onto the higher ground to the laydown/staging area.

This is just a suggested alternate route in the event the property adjacent to the site cannot be cleared in a timely manner.

Please give me a call with any questions or comments.
